MOTORHOME RENTALS

# Your allrounder 2023

## Welcome to your new travel companion, our Allrounder 2023

Enough space to travel comfortably and conveniently, but compact enough for the narrowest roads and campgrounds. With our smallest floor plan and an overall length of just over 24 feet, you get a very handy as well as maneuverable motorhome due to the well thought-out layout and still enough space for up to 5 people.

As in the past years, we do not use slide-outs in our allrounder, simply because the layouts with slide are often difficult to use when retracted, the slide causes additional wind noise when driving and the heavy mechanics are additionally detrimental to fuel consumption. In return, you get large panoramic windows and additional storage space, e.g. for the extensive kitchen equipment.

The new and improved Ford V8 not only consumes less fuel than the V10 engines previously in use, with an impressive 7.3L of displacement and 325 hp, it really is up to any challenge. Thus, we can allow with ease with our vehicles what others do not allow: Driving to Death Valley even in summer.

## The living area:

The sleeping area can be well separated with a curtain and offers a lot of easily accessible storage space above the comfortable queen bed. Since we always want to offer our customers something more, we have had a higher quality mattress retrofitted in all our motorhomes, so you can sleep comfortably even and especially on vacation!

The kitchen has a high-quality stainless steel sink and a large refrigerator with separate freezer compartment. For cooking there is a convection microwave or an integrated baking oven and a three-burner gas stove. Thus, no wishes remain unfulfilled!

The large dinette can easily be converted into a comfortable bed. In the overhead bunk there are two full-sized sleeping spaces available, which are also large enough for adult.

## The bathroom:

In this layout, the bathroom is located to the side in the rear to save space. This makes the motorhome look spacious and open. Among other things, the bathroom has a large separate shower and a spacious mirrored cabinet.
