GRANER
MOTORHOME RENTALS

Your Adventurer 2026

Welcome to our new travel trailer - the Adventurer 2026, a perfect match together with the option of a powerful Jeep Grand Cherokee 4x4

Enjoy the freedom and possibilities of an off-road vehicle without sacrificing the luxury and comfort of a motorhome. Let our new Jeep/travel trailer combination convince you:

With this setup, you benefit from the fuel efficiency of a car, saving up to 30% on fuel costs over your entire trip.

During the day, conveniently leave your home on wheels parked at the campsite and explore areas that previously seemed inaccessible with a motorhome, thanks to the all-wheel drive.

In the travel trailer itself, you'll find all the amenities of a motorhome without having to make any compromises. Plenty of space for comfortable travel, yet compact enough for the narrowest roads and campgrounds. With this layout and an overall length of only 20 feet, the well-designed interior provides a very manageable and maneuverable trailer, while still offering ample space for comfortable travel without compromise.

To allow the caravan to remain self-sufficient in one location for extended periods, we have equipped all trailers with a powerful 400W solar system and the latest lithium batteries with a total capacity of 320 Ah. This means that there are no limits to camping in the great outdoors, especially when combined with the optional generator.

The Living Room:

In the front you will find a comfortable, walk-around queen bed. The cozy seating area offers ample space for up to four people. Equipped with a Bluetooth audio system, it's perfect for relaxing evenings, should the weather not be conducive to campfire romance.

Your Adventurer 2026

The kitchen features a large sink and a large yet energy-efficient propane refrigerator with a separate freezer compartment. A microwave and a two-burner gas stove are also available for your cooking needs.

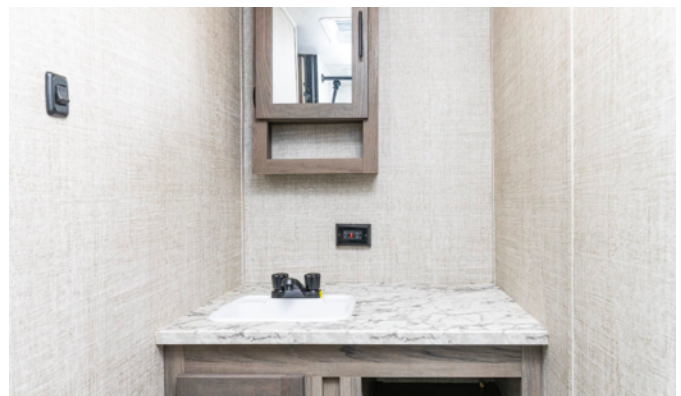

To keep you cool even in the hot desert summer, an electrically operated awning and a powerful roof-mounted air conditioner are included. With the optional generator, you can even operate these at the most remote campgrounds.

The Bathroom:

The highlight of our new adventurer is the spacious bathroom, which extends across the entire rear of the trailer. Here you don't have to sacrifice comfort or space; in addition to the toilet and the sink with mirrored cabinet, you'll also find a separate shower with a deep shower tray, where you can even bathe your little ones if needed.

The Graner Highlight:

Equipped with the optional off-road package, our new adventurer also allows driving on unpaved roads, thus opening the door to new camping experiences amidst the beautiful nature of the Southwest.
